

RIGID MEDIA

RUBBER MAGNETIC SHEETS

Gidke-AG signage gauge, Magnetic Sheets are produced with a calendering process and have a smooth surface with a steady magnetic power.

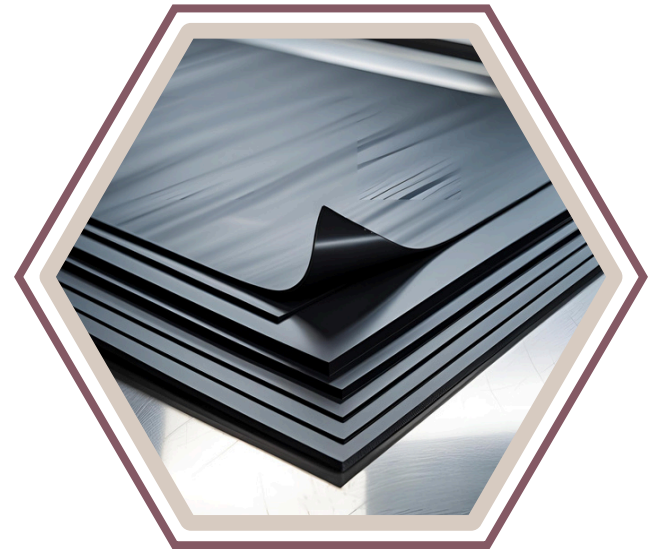

The material is designed specifically for the print, promotion and display industries and can be printed directly on with any digital press using solvent, eco-solvent or UV inks. They can also be printed on with traditional silk screen.

The UV laminated rubber magnetic material is manufactured at thicknesses of 0.6mm - 0.9mm with a layer of 0.1mm printable white PVC layer and can also be optionally supplied in A4 sheets with a 0.26mm and 0.3mm inkjet paper coating for use with desktop printers.

The PET steel film is a direct printable magnetic film with exceptionally high-quality printing results. It is the widest and thinnest most flexible magnet, ideal for vast indoor & outdoor graphics, HP Latex certified, suitable for Solvent, Eco-solvent and UV printing.

APPLICATIONS

- Fast and simple changeover of shop advertising
- Pricing and product information on shelving
- Brand logos & advertising on the sides of cars
- Signalling on commercial & public transport vehicles

PET Steel Film

Product ID	Thickness (mm)	Size (meters)	Comments
CGNM018SOL	0.18 (+/- 0.02)	0.914/1.07/1.27/ 1.37/1.524/1.626 x 30/50	White Matt
CGNM017UV	0.17 (+/- 0.02)	0.914/1.07/1.27/ 1.37/1.524/1.626 x 30/50	White Matt
